"Value Added Course: Ethical hacking"

Event Category: Skill Development Lecture

Topic: "Ethical Hacking"

Date: 10th June 2019 – 21st June 2019

Time: 9:00am – 1:00pm

Venue: Lab 1, JIMS, VK

Resource Person(s) with Designation and Organization:

Mr. Prafful Saxena, Trainer, TechExplica, Nucleus Computers Ltd., New Delhi

Beneficiaries with number:

BCA-III (Ist&IIndShift) JIMS, Vasant Kunj ----25

Faculty Coordinator:

1. Ms. Sonali Sharma, Class Coordinator –BCA-III-M
2. Ms. Snehlata, Class Coordinator –BCA-III-E

Learning Objectives:

1. To learn and understand the concepts of Ethical hacking.
2. To get insight of virtualization, network hacking and kali.

Report:

Department of Information Technology, JIMS, Vasant Kunj organized ValueAddedCourse for BCA – III semester students of Ist and IInd Shift students on "Ethical Hacking" which was taken by Mr. Prafful Saxena, Trainer, TechExplica, Nucleus Computers Ltd., New Delhi. His extensive knowledge and accumulated experience were a great source of help. The duration of course was of 40 hours.

The session started with the introduction to methodology of hacking along with IP enumeration and windows system architecture. He explained about Kali, Linux password cracking and virtualization. Students were provided with hand on experience on virtualization and bruteforcing. Various types of attacks and concepts like phishing, software reverse engineering and spywares were also explained. At the end of the training, students were given project for implementation such as SECTALKS, SICKOS and MR. ROBOT. Their performance was evaluated and students received certificate of achievement by Hewlett Packard Enterprise delivery partner.

Report of Python with Data Analytics

Event Category: Value Added Course

Topic: Python with Data Analytics

Date: 10th June-6th July 2019

Time: 09.00 AM onwards

Venue: F3, JIMS, VK

Resource Person(s) with Designation and Organization: Mr. Utkarsh Sharma, Tech Explica

Beneficiaries with number:

1. BCA-IV (Ist & IInd Shift) JIMS, Vasant Kunj ----60

Faculty Coordinator:

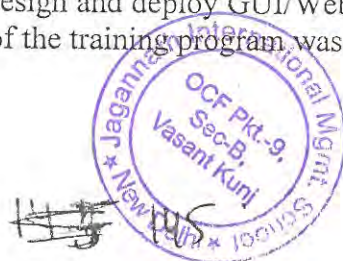

1. Ms. Anjali Pahwa, Class Coordinator ,BCA-IV-M
2. Ms. Priyanka Rattan, Class Coordinator ,BCA-IV-E

Learning Objectives:

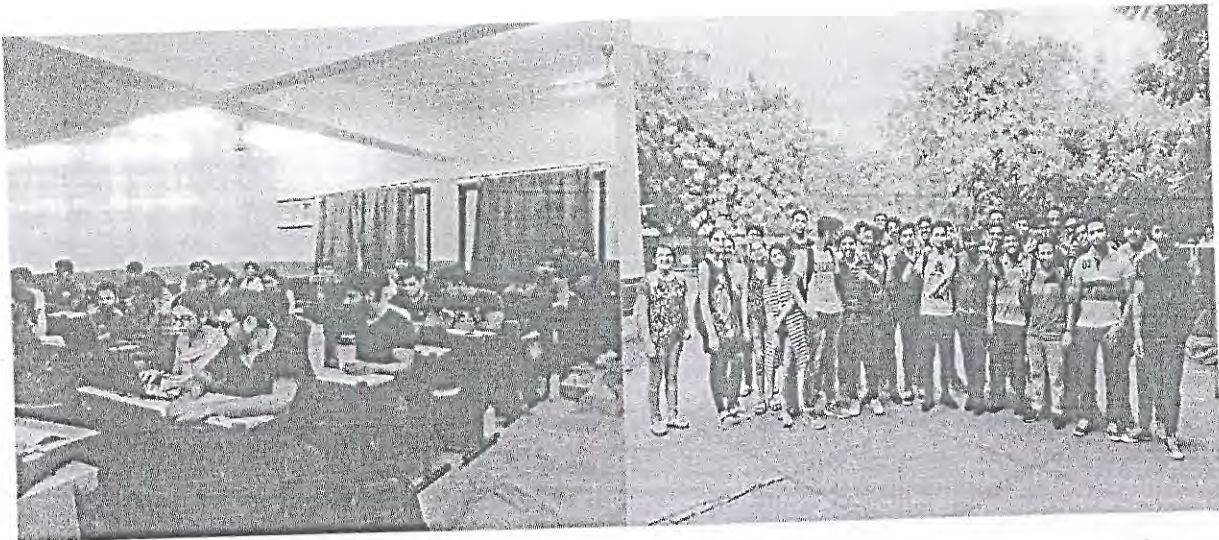

- To understand why Python is a useful scripting language for developers.
- To learn how to design and program Python applications.
- To learn how to use lists, tuples, and dictionaries in Python programs.
- To define the structure and components of a Python program.
- To learn how to write loops and decision statements in Python.
- To learn how to design object-oriented programs with Python classes.

Report:

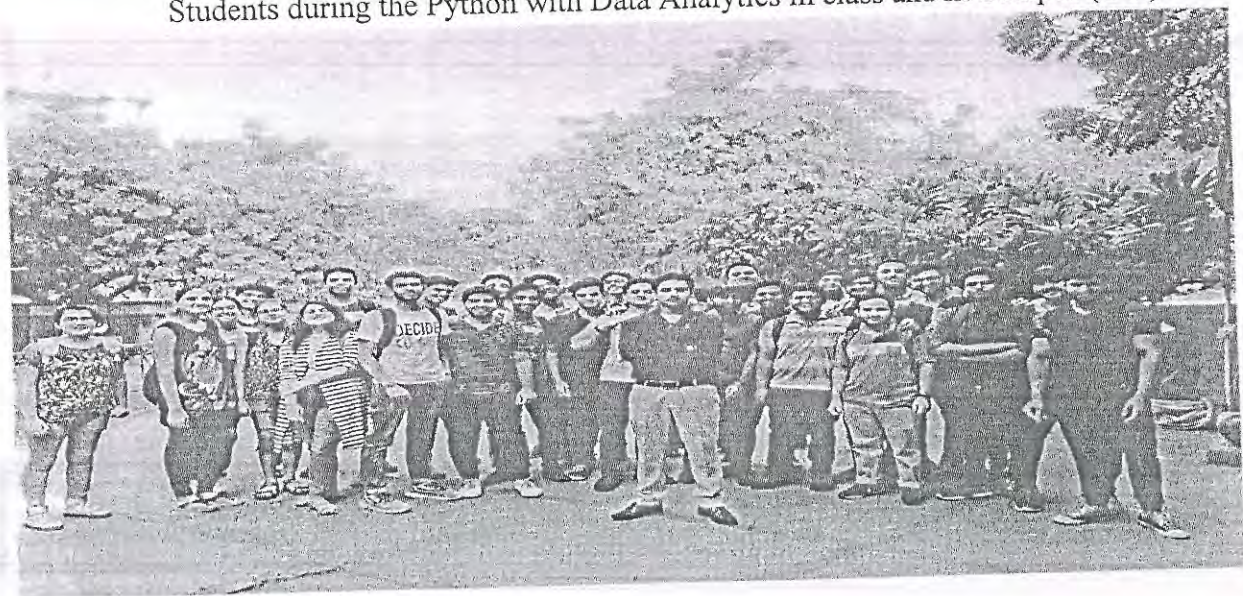

Data Analytics with Python course was conducted in JIMS, vasant kunj from 10th June 2019 to 5th July 2019 for the students of BCA IV semester to enhance their skills in Data Analytics field for their future perspective. It was the course of 60 hours. Total 60 students have participated in this training program. The students were trained by Mr. Utkarsh Sharma (Data Science Consultant) from Tech Explica. The students gained knowledge, competencies, skills in Scripting and also learned how to Design and deploy GUI/Web based Applications to easy their manual work. The overall feedback of the training program was excellent.

Learning Outcome:

1. Express different Decision Making statements and Functions
2. Interpret Object oriented programming in Python
3. Understand and summarize different File handling operations
4. Explain how to design GUI Applications in Python and evaluate different database operations.
5. Design and develop Client Server network applications using Python

ANDROID COURSE

Intermediate Level

Objective

In this module, we will be discussing about the tools and techniques of Android. This module is designed by experts for students and working professionals. Android is a mobile operating system developed by Google, based on a modified version of the Linux kernel and other open source software and designed primarily for touchscreen mobile devices such as smartphones and tablets.

Introduction to Java

- Introduction, Installation, Environment Setup JVM, JRE, JDK
- Java Programming Basics
- A First Java Program Compiling and executing Java Applications
- The JDK Directory Structure

IoT Platform

- Wearable Platform
- Embedded platform
- Cloud platform for IoT

Array in Java

- Single, Multi-Dimensional, Jagged Object Class Array

Interfaces and Abstract Classes

- Separating Interface and Implementation Definition
- Interfaces Implementing and Extending Interfaces
- Runnable Threads Abstract Classes

String

- Charsequence, String, StringBuffer, StringBuilder

Variables, Data Types & Control Statement

- Primitive Datatypes
- Declarations Variable Names Numeric Literals
- Character Literals String, if-else, switch case

Object-Oriented Programming

- Introduction to Object-Oriented Programming
- Classes and Objects Fields and Methods
- Encapsulation Access Control
- Inheritance Polymorphism, Abstraction

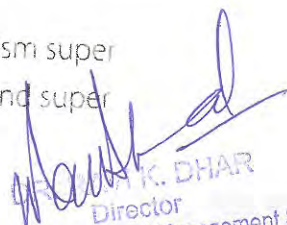

Inheritance and package in Java

- Inheritance Inheritance in Java Casting Method
- Overriding Polymorphism super
- The Object Class, this and super

Classes

- Inner Classes
- Member Classes
- Local Classes
- Anonymous Classes
- Instance Initializers
